

So this goes in the category of the things that make you go “hmm..” According to credit karma, 33% of Americans know at least the net worth of one celebrity and amongst Gen Zers that number is 64%. Now despite knowing all these important facts out there, the survey also showed that amongst these groups surveyed only 51% knew how to calculate their own net worth. So obviously this is a problem and we'd be happy to show you how to calculate your own net worth. Reach out and we'd be happy to help. And as always, your loved ones will appreciate this. Thank you and all the best.
